

WELCOME TO

ATMAN

AIM 2025

ATMAN INNOVATION MEET

PURPOSE - DOSE

D DOPAMINE

Often called the “reward” chemical, it's released when you achieve goals, giving you pleasure, motivation, and focus.

O OXYTOCIN

Known as the “bonding” hormone, it fosters trust and connection during close moments like hugging, helping, or quality time with loved ones.

S SEROTONIN

The “mood stabilizer,” it supports well-being and balance, boosted by sunlight, exercise, healthy food, and mindfulness.

E ENDORPHINS

The body’s natural painkillers, they ease discomfort and boost pleasure during exercise, laughter, music, or eating chocolate and spicy food.
